

Maitri Health – CleanTerra

Non-Toxic, Anti-Viral Cleaning Solution for a modern society.

CleanTerra Envirocleans-A is a non-toxic, environmentally friendly, cleaning solution that is proven to kill pathogens including Covid-19.

More effective than bleach, Envirocleans-A is an effective daily disinfectant that can quickly and safely be used to eliminate pathogens on high touch surfaces such as counters, escalators, wheelchairs, site signage, gyms, desks, vehicle interiors, restrooms and hotel rooms. No dilution, no mixing. Masks, gloves or other safety equipment are not required when applying. Effective cleaner, non-corrosive, food safe and non-toxic. Harmless to humans, animals and to the environment. Can be used with high volume sprayers for fast, effective protection in large surface areas.

CleanTerra is part of Maitri Health Technologies system of products and solutions. Our platform is made up of best of breed materials and technology to keep our world safe today and into the future.

V1 | SEPT 2020
