

Maitri Health N95 Cup Mask

True Safety, Made On-Shore.

The Health Canada approved N95 Surgical Cup Mask, offered by Maitri Health, is designed to meet the rigorous demands of medical professionals and front-line workers. Our surgical cup mask is form-fitting to a medium and large size face. The N95 Cup Mask also demonstrates excellent independent lab results to further provide assurance that in today's environment, there is a product designed with a priority on safety.

Maitri Health Technologies is focused on delivering on-shore manufactured products to the North American Market. The Cup Mask meets the need to keep our society safe along with supply chain security. Made in Canada, by Canadians, the Cup Mask is part of a line of products made in partnership with INNO LIFEcare.

The Cup Mask is part of the Maitri Health Technologies system of products and solutions. Our platform is made up of best of breed materials and technology to keep our world safe today and into the future.
